

Soroptimist of Corona

Fall 2017

President's Message

by Denise Middleton

I cannot believe it has been nearly five months since Installation! So much has already happened – four inductions, Fall Meeting, amazing club engagement at our weekly meetings, committees starting to plan our Service Projects, and of course our 15th annual Chocolate Wine and Jazz. Sometimes I must pinch myself and be reminded about how lucky I am to be at the helm of this fabulous club.

Although we are fully immersed in club activities already (as the photos in this newsletter show), I'm kicking off my President's Message by refreshing your memory of the words that I shared with all of you in June:

The theme that I chose for this year is Mapping Our Path. When that idea first came to me, I just thought how perfectly it fit me. Every journey I embark on finds me with a map in hand. Whether it's travelling on the road or navigating a hotel resort I always have this need to know where I'm at, where I'm going, and how I'm going to get there. And path...well it seems I'm always on a path to somewhere.

As this theme simmered in my thoughts, I realized it means so much more than just maps and paths. We're all in different places in this club. Some are new members trying to get their bearings and see where they fit in. Some are retired with a wealth of life experiences to contribute. Others are overloaded at work and can just barely make it to meetings. That's all part of who we are, and that's how this idea of mapping our path got put down on paper. Each of us is on our own path; it may be straight or might have some curves and bumps. Each of these paths meet when we come together for our fundraiser and our service projects. Most importantly, all our paths are headed in the same direction of fulfilling our mission.

I have to thank all of you for nudging me along on this path of being President. The support we give each other is truly amazing. It inspires me to see how we all come together when it matters. It's because of this that I have full confidence in my ability to fulfill this task. My job is simply to keep all our paths moving in the same direction.

My goals for this year are simple. There are only 2. First, is that we continue to work towards our mission. We do this by committing fully to our fundraiser – and to all our programs. The second goal is the flip side of the first. Making sure that we are all 100% engaged in what we do. It's certainly not 100% of your time that I'm looking for, but it is 100% of your spirit. I don't just want us to be going through the motions. It's not a matter of how many new members join or having great retention. Sure those are great things, but it's much more important to me that all of us participate.

To accomplish these goals I'm going to bring back a bit of the past. Not too far back, just to the beginning of my Soroptimist path. Each year, there are things that the current president has done which is unique to her, and which has stood out to me. From my 1st year, when Cyndi was president, we had joy with us every step of the way. I want us to remember that we are here because we want to be. It's our choice, so we gladly participate. From Monica's year I loved the storytelling. Honestly, I hated the thought of it when she first introduced it, but storytelling came to be one of my favorite parts of meetings. What I want to hear this year is stories from our past presidents, so we can all share in the history of this great club. When Paola was president members bonded with each other outside of club events, and I want to continue that. Maria had a way of making us feel special, showering us with appreciation and getting high attendance numbers. And Michelle brought us back to our roots, keeping us focused on service. All of these are things I'd like to incorporate.

In closing, I thank you again for giving me the opportunity to serve as president. And let us remember, life is nothing short of an adventure – let's embrace the journey.

Seema M Lechner

Corona, CA
seemalechner@aol.com
Phone 951 808-0954
www.lechnerchiropractic.com

At Lechner Chiropractic you can expect a family atmosphere with a very enthusiastic, friendly and courteous staff. We care for all types of injuries such as work injuries, personal injuries (automobile accidents, slip and falls) and accept most insurance companies including Medi-care, Medi-cal and Kaiser. Lechner Chiropractic emphasizes the three phases of care: relief care, corrective care and wellness care.

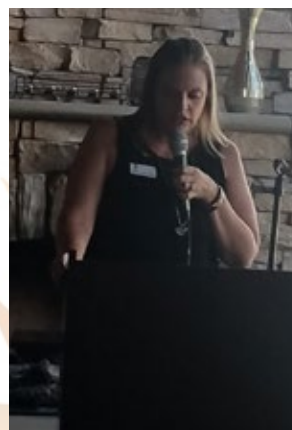

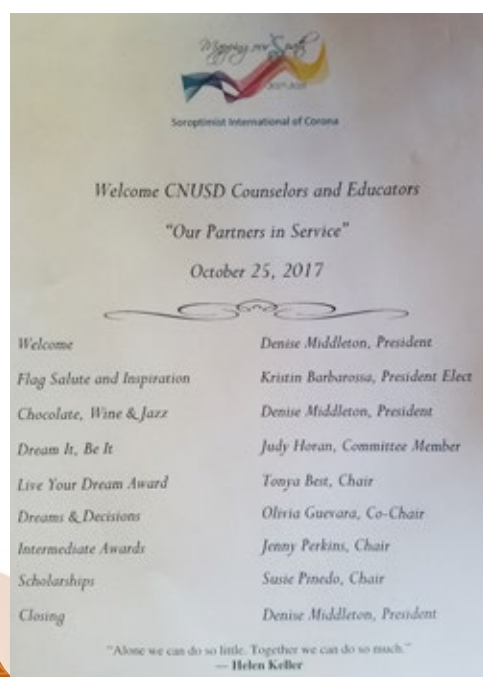

Relief care is the beginning of care to reduce swelling and pain. Once the pain is controlled, we begin corrective care to strengthen and stabilize the areas of the pain source. Wellness care is implemented to prevent the reoccurrence of your previous conditions and to correct new conditions before symptoms appear.

When you begin your care at Lechner Chiropractic, you will be given the appropriate paper work to fill out. You can print the necessary forms from our web site (Patient Forms) and bring them with you.

Dr. Lechner will begin with a thorough examination and will assess your areas of concern, as well as carefully considering your health history. Only after this initial examination will they offer a recommended course of treatment. Based on the analysis of your initial examination, your treatment could consist of chiropractic adjustments, therapies and rehabilitation.

There are many different aspects to proper Chiropractic Care. Do not hesitate to contact us if you have any questions.

Every day, in small towns and big cities in countries throughout the world, women and girls are being trafficked into a horrible life of sexual slavery. Almost one million people—the majority of them women and girls—are trafficked across international borders each year.

Shawn, Gigi and their committee are meeting regularly to finalize the details for the event. They are still working on getting the participants commitments.
